Karyn Albers, Superintendent

Brandon Taylor, Principal

FCC - CC Docket No. 02-6

Waiver Request

To Whom It May Concern

I am filing this waiver for the ERate 471 form for the 2018 year. I, being the district contact, filed a form 471 for category 2 for the 2018 and misunderstood that I would still be required to file a 471 for the category 1 data connection that we are currently under a 5 year contract for.

I attended an ERate filing workshop for the form 470 and misunderstood the presenter to say that I would not have to file a 471 for category 1 because I was under a 5 year contract. I now know that it was the 470 that I did not have to file for the category 1 items.

I am requesting this waiver due to lack of knowledge on my part. Coulterville is a small rural district with a good amount of low income students that greatly depend upon the school's internet access. I am asking please do not let my mistake affect my student's education.

Sincerely When When

Karvn Albers
